

Click (feat. Lil Wayne & Fresh)

Dash Flash

Lately been killing the game, I feel like I am the one
With the waves, take a flight to the city I'm from
Still getting love in my town and you just get none
You be stressing out nia, I just do this for fun
Every beat I rip, always make hits and another one
Never wasting time, I'm increasing my funds
Getting rich, can't be middle class, I feel like a bum
When you getting money, rain on chicks, call it you hun
I get the whole pod, you lazy nias pick up the crumbs
Drive past the club flexing and these haters look stunned
And I'm just getting started, it's ironic, you dumb
You never did anything with your life, you dun
Getting buzz, making noise like the beat of a drum
Drum making hits after hits, you can tell I'm on a run
Text me the ox, got fire hotter than a sun
Nias wanna be down with the sts
They can never be a part of the click, lil nia
You tryna be all in the mix, you can never be a part of the click
You tryna be all in the mix, and you ain't never been down with the sts
Boy you tryna be all in the mix, you can never be a part of the click
You tryna be all in the mix, but you ain't never been down with the sts
Thing still on, what they going for?
Heavy in a couple cities, don't tell the informers
Chevy 16 inches, 10 switches
Drop top, old school, whole Tim btches
Folding them riches, get both for them digits
No lil nia could compare to Young
Nuts hung low, hoe prepare your tongue
The game been hurting, I'm the medicine
Ahead of them I aim then squirt at the rest of them
Motherfk them, I'm the boy on fire like Carteriod
Repping the, I get money forever
I got 2 clips taped together
That's 100, whatever, loving the cheddar
Call me mozzarella, it's no sweat
I could hustle in the hottest weather
I'm Weezy fking baby, lots of terror
BS, a few chefs, whoever, yeah
You tryna be all in the mix, you can never be a part of the click
You tryna be all in the mix, and you ain't never been down with the sts
Boy you tryna be all in the mix, you can never be a part of the click

You tryna be all in the mix, but you ain't never been down with the sts
