

I'm Slowly Turning Into You

The White Stripes

I'm slowly turning into you, but you don't know this to be true.
You say I'm lying and I never really tell you the truth.
But your face is getting older, so put your head on my shoulder.
Yeah, put your head on my shoulder. Yesterday, it hit me that I do all the little things that you
do,
Except those same little things that you do are annoying.
They're annoying as hell in fact.
It kind of struck a little bell in fact.
I like to keep my little shell intact.
And I'm slowly turning into you...
And I'm slowly turning into you...
And I'm slowly turning into you... Then something else came to mind, that was the mirror.
It made everything clearer.
That you're more beautiful, compelling, and stronger;
It didn't take much longer just for me to realize
I love all the little things, and the beauty that they're gonna bring.
I dig your little laugh and I'm loving your quick wit.
I even love it when you're faking it.
And it might sound a little strange for me to say to you,
But I'm proud to be you.
And I'm slowly turning into you...
And I'm slowly turning into you...
And I'm slowly turning into you...
And I'm slowly turning into you...
