

# True Believer

Avicii

I wasn't always the brightest  
Until I learned how to dance  
You got me thinking  
Love will come around, but you never gave me a chance  
I might not been the tallest  
Until I learned how to jump  
You got me thinking  
Love will come around But you, never say I'm the one If I could make you  
Make you fall in love with me  
If I could make you  
Make you fall in love  
Wish I could make you  
Make you make you fall in love  
Maybe love will come around  
If you want it enough Maybe love will come around  
If you want it enough Love will come around  
Maybe love will come around, for us  
I wasn't always the bravest  
They say you only live once  
So, you got me thinking  
I'm so glad I found you  
Life's what you make it  
So here it comes it goes  
If I could make you  
Make you fall in love with me  
If I could make you  
Make you fall in love  
Wish I could make you  
Make you make you fall in love  
Maybe love will come around  
If you want it enough  
Maybe love will come around  
If you want it enough  
If you're a true  
Believer  
If you're a true  
Believer  
Love will come around  
L-la-love will come around for us
