

Comfortable Liar

Chevelle

Broad, is this sea
The salt, enters the wounds
My take, on you is simple So heal(heal), your fear
To heal(heal), your fear
Time, spent waiting offshore
The calm, before the storm Mmm, my take, from you is simple
So heal(heal), your fear
To heal(heal), your fear You're such a comfortable liar
You're such a comfortable liar
You're such a comfortable liar
You're such a comfortable liar
You're such a comfortable liar
So calm
'Cause I said wrong
You comfortable liar
You comfortable liar
You comfortable liar
You comfortable liar
Liar
