

# Your Soul

## Forrest

I was thinking maybe you should come with me  
You just play your song and I'll accompany  
I'll bring you the greatest things in life, all free  
So I invested my money in your company  
Like where you wanna go, girl, I'll take you there  
Let me put another flower in your hair  
When I'm with you I can't even have a care  
Take all of my soul, I'm not afraid to share  
Woah oh oh  
I love your soul (Oh I love your, oo I really love your)  
Oh oh oh  
I love your soul  
Mmm  
Woah oh oh  
I love your soul (Oh I love your, oo I really love your)  
Oh oh oh  
I love your soul (your soul)  
Mmm  
You're always perfectly perfect  
We got like product de purchase  
Low like the breezing these verses  
Put all the men in these hearses  
I love just watching you work it  
Splash on the beat and in surface  
Bring it to life and then murk it  
It has me losing my circuits  
The way you move it  
Everybody stopping what they doing  
Just to see the way they to be grooving  
I've made up my mind there is no choosing  
Choosing  
Woah oh oh  
I love your soul (Oh I love your, oo I really love your)  
Oh oh oh  
I love your soul  
Mmm  
Woah oh oh  
I love your soul (Oh I love your, oo I really love your)  
Oh oh oh  
I love your soul (your soul)  
Mmm  
Aye, little bit o' sunshine in my life  
A little bit o' reggae for my ride

A little bit o' color for my feed  
A little bit o' summer, what I need  
A little bit o' pass out in the sun  
A little bit o' stay up after one  
A little bit o' movement, that's the flame  
A little bit o' hold up, that's my jam, aye
