

Somebody

Mary Mary

Everybody has bad days
When they feel like no one cares
Call your friends in the middle of the night
And they just can't be there I know someone who's available
And he'll answer every time you call
He will never leave you alone
That's just the kind of friend you should know Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
Let me offer you a suggestion
And I'll leave you without no doubt
A love that reaches far and wide
That's where my faith lies
Let me tell you why
'Cause every time I'm sad and lonely
He'll come and put his arms around me
See, God's love is the first and it is the last
So wave your hands Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
(Do you know?)
Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
I've got a friend
Who loves me so
You ask how much
I'll never know
And since I found this love
I want to share
With everyone Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
Anybody know somebody?

Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody x2 more O do you know?
O do you know?
Ooooohhh Anybody know somebody?
Someone who will love anybody?
Even if you're just a nobody
I know somebody, somebody
(To Fade)
