

Hang On (Pete Hammond Extended Mix)

Plumb

I'm so stubborn
It's how I got here
So alone
Feels like forever
I wanna swim away
And breath the open air
But I feel so afraid
Then I hear you say Hang on
When the water is rising
Hang on
When the waves are crashing
Hang on
Just don't ever let go
I'm so hungry
How can I stay here?
I'm starving
For what I hold so dear
Like a hurricane
It takes everything
From me
Wake me from this dream Hang on
When the water is rising
Hang on
When the waves are crashing
Hang on
Just don't ever let go
Hang on
When you're barely breathing
Hang on
When your heart's still beating
Hang on
Just don't ever let go Three days
Or thirty years
So hopeless
It doesn't matter
Don't say it's too late
If you blink your eyes
The sun is rising
The sun is rising Hang on
When the water is rising
Hang on
When the waves are crashing

Hang on
Just don't ever let go
Hang on
When you are barely breathing
Hang on
When your hearts still beating
Hang on
Just don't ever let go
