

Mother Earth

The Sweet

Smiling eyes in a sea of faces
Stealing time for secret places
Making love in the afternoon This is the third stone from the sun
He made it for everyone
This is the third stone from the sun
He mad it for everyone
Mother Earth is calling you
Mother Earth is calling you
Mother Earth is calling you
Today
Rolling Stones should rock together
Ride the storm cloud crystal weather
Silver sun when the day is done This is the third stone from the sun
You made it for everyone
This is the third stone from the sun
You made it for everyone
Mother Earth is calling you
Mother Earth is calling you
Mother Earth is calling you
Today
This is the third stone from the sun
He made it for everyone
Mother Earth is calling you
Mother Earth is calling you
Mother Earth is calling you
Today
