

Bitch

Dope

There's something about the way we fit
There's something about this psycho trip
There's something about the way we groove
Something's got me and I just can't seem to choose I want you
But I hate you The one I love I hate
But the sex is great
The one I love I hate
But the sex is great
The one I love I hate
So I contemplate
The one I love I hate
But the sex is great
There's something about the way we slide
There's something about this psycho ride
There's something about the things we do
Something's got me and I just can't seem to choose I want you
But I hate you The one I love I hate
But the sex is great
The one I love I hate
But the sex is great
The one I love I hate
So I contemplate
The one I love I hate
But the sex is great One, two, fuck you
Never say no
Ready to go
We're out of control
But I can't let you ' cant let you go! There's something about the way we fit
There's something about this psycho bitch The one I love I hate
But the sex is great
The one I love I hate
But the sex is great
The one I love I hate
And I could suffocate
The one I love I hate
But the sex is great I love to hate you,
You know I love to hate you,
You know I love to hate you,
You know I love to hate you,
Hate you,
Hate you,

Bitch.
