## **Bitch**

## **Dope**

There's something about the way we fit
There's something about this psycho trip
There's something about the way we groove
Something's got me and I just can't seem to chooseI want you

But I hate youThe one I love I hate

But the sex is great

The one I love I hate

But the sex is great

The one I love I hate

So I contemplate The one I love I hate

But the sex is great

There's something about the way we slide

There's something about this psycho ride

There's something about the things we do

Something's got me and I just can't seem to chooseI want you

But I hate youThe one I love I hate

But the sex is great

The one I love I hate

But the sex is great

The one I love I hate

So I contemplate

The one I love I hate

But the sex is greatOne, two, fuck you

Never say no

Ready to go

We're out of control

But I can't let you 'cant let you go!There's something about the way we fit There's something about this psycho bitch'The one I love I hate

But the sex is great

The one I love I hate

But the sex is great

The one I love I hate

And I could suffocate

The one I love I hate

But the sex is greatI love to hate you,

You know I love to hate you,

You know I love to hate you,

You know I love to hate you,

Hate you,

Hate you,

## Bitch.
