

Thunder on the Tundra

Thor

Summoned by the goddess
she needs some volunteers
a band of trained commandos
to scan the hemispheres
in search of the sceptre
who's power soothes the beast
We travel through the snowstorms
and blizzards from the east
There's Thunder on the Tundra
There's Giants across the Land
There's Thunder on the Tundra
There's Giants across the Land
Our Chariots scream with fury
towards the northern lights
snowblind we brave the storm
we torpedo across the ice
the Dragons guard their treasure
we smash down the walls
and crush the gates of hell
There's Thunder on the Tundra
There's Giants across the Land
There's Thunder on the Tundra
There's Giants across the Land
There's Thunder on the Tundra
There's Giants across the Land
Yeah there's thunder on the tundra
There's Giants across the Land
There's Thunder on the Tundra
There's Giants across the Land
