## Long Way Down (feat. Sarah McLachlan)

## **Swollen Members**

it's a long way down It's a long way down It's such a long way down to the place where we started Yo, i'm still trying to figure out this Venus and mars thing But everytime I see you all I hear is a harp string We chilled last night I had to record this Listen to portishead Makin love in the forest Where not stuck in this orbit Its gonna work out for us So gorgeous like the voice of the woman gracing the chorus A newborn in its pure form Gentle and precious We connect on more than just mental Don't let this shit stress us I'm okay if you're okay I know it sounds clich' But we built this whole relationship from sand and clay Now we're so strong We've got a concrete bond And it completes so solid I had to write this song And it's a long way down It's a long way down It's such a long way down to the place where we startedWe met when we was young Two hearts that beat as one I knew it from the start Not till death do us part Nothing compares to you (keep blazin) I'm a fine young cannibal And you drive me crazy I know your looks attracts guys But that don't faze me Soul mate, make me feel like they got nothing on me Just to, taste your lips Plus your voice is calming I know its hard babe cause i'm always on tour But my love is fucking pure And that's for sure Been around the world

Feel like I've covered whole earth's surface Stressed out to the point of askin if it's worth it Sometimes it trips me out kid Cause you're so perfect I gotta keep working, striving and building So we can get a house, have kids and grand children Till then I'll make sure you don't regret That you gave me another chance girl I won't forget! It's a long way down {WITH MAD CHILD IN BACKROUND} Listen to me man, make sure you love what you do Cause it's gonna take a time for anyone to get to the ultimate goal And As long as you love what your doing Doesn't matter how long it takes And when it finally does happen Try to remember how hard you worked to get there And appreciate that's shit Keep climbing BATTLEAXEI'm shark where you swim Sharp as a dart in your skin We've been given a title that's not hard to defend Not just my partners my friends See this from start till the end With words that alter the wind Cause we assault with a pen And hit with the song No problems here we getting along Take turns from learnin from our mistakes Admit when we wrong And everybody knows how to fight To shows that are tight Appropriate strikes Nobody's sober tonightTake a walk on the wild side Give me beats and I'll never die Ill hold your mind like a hypnotist Swing the watch into overdrive There's no rabbit or wand My habits are rippin a song The magic comes from the act of people waving their arms I'm as sane as I was Given and receiving the love Livin and breathing this stuff {With Rob the Viking on drums} Battleaxe warriors ' mad child prevail This is music for ya'll bars notes and scalesAnd it's a long way down It's a long way down

It's such a long way down to the place where we started Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
