

# The City Is At War

## Cobra Starship

The city is at war  
Playtime for the young and rich  
Ignore me if you see me 'cause I just don't give a shit  
The city is at war  
Bless the young and rich  
With designer drugs and designer friends  
The city is at war  
Playtime for the young and rich  
Ignore me if you see me 'cause I just don't give a shit  
The city is at war  
Bless the young and rich  
With designer drugs and designer friends  
Here's how it goes  
It's about who you know  
If you got money  
You get in for free  
Get on your knees  
If you wanna reach the top  
The party never stops (Never stops)  
Don't stop now (Don't stop now) Come on!  
Stick around and see how it ends  
Get the money and run  
And meet me at the parking lot  
Bang, bang, shoot 'em up yeah  
The city is at war  
Playtime for the young and rich  
Ignore me if you see me 'cause I just don't give a shit  
The city is at war  
Bless the young and rich  
With designer drugs and designer friends  
This little girl was alone in the world  
Till she found a way to get a fix for free  
Oh, pretty please  
It breaks my heart to see  
Another tragedy  
She finally got her picture on TV  
Come on!  
Live it up while you can  
We all lose in the end  
No, you don't get another shot  
Bang, bang, shoot 'em up yeah  
The city is at war  
Playtime for the young and rich  
Ignore me if you see me 'cause I just don't give a shit  
The city is at war  
Bless the young and rich  
With designer drugs and designer friends  
The city is at war

The city is at war  
The city is at war, whoaBang, bang shoot 'em up, shoot 'em up yeah  
Bang, bang shoot 'em up, shoot 'em up yeah  
(The city is at war)  
Bang, bang shoot 'em up, shoot 'em up yeah  
Bang, bang shoot 'em up, shoot 'em up yeah
