

# Oh Darlin' What Have I Done

## The White Buffalo

Oh darlin, darlin  
What have I done?  
Well I've been away from you too long  
And all my days have turned to darkness  
And I believe my heart has turned to stone Oh darlin, darlin  
What have I done?  
Now I don't say anything at all  
Well God don't listen to the noise  
Now I'm left here all alone  
Ooh, oh, I hear what the neighbors say  
That that poor boy has lost his way  
And I let the others pray Oh darlin, darlin  
What have I done?  
Now I do my talking with a gun  
And blood will spill into the gutters  
And it will stain the morning sun Ooh, oh tell me what the hell I've done  
Can I stop at one?  
Or have I just begun? Take out the bodies that live  
Oh, Lord, it gets me high  
I think I'm gonna get my fill  
Of taking lives Oh, Lord, I don't wanna let my baby down  
Well I just wanna give us something one of a kind  
Oh darlin, darlin  
What have I done?  
I've been a stray from you too long  
And all my days have turned to darkness  
Hell is leaving the light on And ooh, oh they'll hang me way up high  
God himself will drop me from the sky  
And let me swing a while Oh darlin, darlin  
What have I done?  
What have I done?
