Oh Darlin' What Have I Done

The White Buffalo

Oh darlin, darlin What have I done?

Well I've been away from you too long And all my days have turned to darkness

And I believe my heart has turned to stoneOh darlin, darlin

What have I done?

Now I don't say anything at all

Well God don't listen to the noise

Now I'm left here all alone

Ooh, oh, I hear what the neighbors say

That that poor boy has lost his way

And I let the others prayOh darlin, darlin

What have I done?

Now I do my talking with a gun

And blood will spill into the gutters

And it will stain the morning sunOoh, oh tell me what the hell I've done

Can I stop at one?

Or have I just begun? Take out the bodies that live

Oh, Lord, it gets me high

I think I'm gonna get my fill

Of taking livesOh, Lord, I don't wanna let my baby down

Well I just wanna give us something one of a kind

Oh darlin, darlin

What have I done?

I've been a stray from you too long

And all my days have turned to darkness

Hell is leaving the light on And ooh, oh they'll hang me way up high

God himself will drop me from the sky

And let me swing a whileOh darlin, darlin

What have I done?

What have I done?
