

Any Wonder

Yellow Ostrich

What is mystery, what is still unknown?
We can claim it all
We can close the door
But I wanna lay down, be swallowed by the sound
I wanna feel small, don't you? What's beyond my scene, what I'll never know
It escapes me, I'm trying to watch the show
I'm gonna try hard to tear it all apart
I wanna be stunned, don't you? Is there any wonder? You're my mystery, you're my great
unknown
You're my foggy night, you're my open door
I'm on a full sprint to cover all of it
'cause I wanna be small, don't you?
Is there any wonder?
