

David

Nellie McKay

Look at you you're young
Havin' so much fun
Gonna be a star
Blah blah blah
And click there goes the phone
I don't wanna know
What my
Horoscope's predicting Just pour me a drink
'Cause I need a kick
I don't wanna think
I just wanna sip David don't you hear me at all
David won't you give me a call
Waitin' here not makin' a sound
David come around
Mister bushie says
I'm your president
I have lots to say
Hey hey hey
And click goes the remote
There you have my vote
Catchin' the next boat out of here Just pour me a drink
'Cause I need a lie
I don't wanna think
I just wanna die David don't you hear me at all
David don't you hear through the wall
Waitin' here not makin' a sound
David come around
Chaos pervades the world outside
Days offer spades of hurled outcries
Gone is the fair and five and dime
But he is there
He's so fine Listen to her play
Has somethin' to say
Even has a rap
Clap clap clap
But click there goes the lid
Sorry 'bout the fib
I ain't got a grip on nothin' Just pour me a drink
Right outta the can
I don't wanna think
I just want my man David don't you hear me at all
David dear I'm just down the hall

Waitin' here not makin' a sound
David come around
