

Quick

Jill Scott

When you left me couldn't believe it
I thought that we had magic
I thought that we were special
But it's over, haBelieve it, I can't fathom
This terrible reaction to checking my phone
Damn, you're madder than a mad hatterQuick, can't believe it's over
Quick, can't you come over?
Shit, I miss you darling
He, "I'm a one man lover""I'm not a Casanova, yeah"
I can't believe it's over so quick, ah, ah
I called you, you didn't call me
I wanted you, you didn't return my messages
How could you be so thick?
Had a lot of women on you
Didn't like the fact that I wanted to own you
That's what you said to me
Said that I wanted to lock you down
But you moved into my house, gave me a sonIt was so quick
The way that it happened, quick
The way that you left me, quick
Can't believe it's over, can't believe it's over nowI loved you
I really loved you
Can't believe that it's over
Can't believe that we would ever splitI'm feel it in my stomach
I can't seem to move one
I'm sick from the nights that happening, ah
Medicines just ain't helping
I can't seem to get well and
Over, can't believe it's over
Over, can't believe it's over
Over, can't believe it's over so quickOver, can't believe it's over
Over, can't believe it's over
Over, can't believe it's over so quick
