

Stay the Same

The Underachievers

Y'all niggas not low
Trying to bang with the gods
Guaranteed y'all niggas gon' fold
I ain't try'na blow
Nigga fuck going Gold
Said I'd make more money off these shows
Everyday I smoke with the woes of the world
Only way young nigga gon' coast
Spreading love around the globe
When I come through they know
Young nigga ain't even got to boast
This straight slap
Flatbrush, where the hoes and the fiends at?
Nigga flipped green packs 'til the heel cracked
Street kid but you know I bring peace back
Two blunts to the dome, nigga relax
[?] but you know a nigga read laps
Fuck a troll
Smoking strong where the lean at
Got my love from the game
I don't need rap
But it's good when you know a nigga spit fact
Gonna extend my reign hoe
Double up, I count peso
Building up, I'm like Legos
Back to basics I can't go
Spit rock, how we gon' flop?
Young nigga like 2Pac, let off two shots
All my niggas gon' Brah, fuck your hood cop
Hittin' niggas 'fore they move
Cops laugh as you drop
Man fuck that
Been places they can't go
Seen things they can't know
Chilling blowing that dank dro
Reminiscent on my past fore'
Move you study the truth
In the booth
Make a new tune
Me and my crew
Nigga 'stead we got loose too
Lookin' like fools

We the leaders of the new school
Tell me, who you?
I'm a game changer
Switching lanes
Made it through the pain
What'chu bang
All my niggas king
This the hit off the brain
What'chu thought?
Soon as you'd get through war, you'd forget to reign?
Ain't no limits in my way
All my niggas here to stay Hold up, Hold up
Ain't work that hard to stay the same Never had shit
Just a half of the piff
Strong will power and a passion to give
World on my hands, I ain't passing a kid
Gotta make sure that your plans on a rational tip
Way back then when my tracks ain't spin
Ain't have no support, now it's no new friends
I ignited the torch
I desire to win
Now I'm high with the voice that's inspiring 'man
Rise and you fall
But the prides held within
Spreading food for your thoughts
How my timing is spent
I've been convinced
If my rhyming get stripped
Top five of your best
And I've died for the bet Alive on the first
In the sky on the sec'
Got positive earth
Each month on the West
Set fire to the Church
Speaking god for the check
Cause they tried to define since birth
What our flesh Bigs to the best
Relax and take notes
Disaster only happens when
Rats do break lows
In trap door
We been living backwards
I know, look after one another
Think past the Bible Pass some time though
Just for survival
Seeing both sides
Help redefine soul
Eyes turn red wine
From weed that I smoke

But always got time for leading my Coast I'm a game changer
Switching lanes
Made it through the pain
What'chu bang
All my niggas king
This the hit off the brain
What'chu thought?
Soon as you'd get through war, you'd forget to reign?
Ain't no limits in my way
All my niggas here to stay Hold up, Hold up
Ain't work that hard to stay the same
