

# Can't Forget You (feat. The Nicholas)

## San Holo

I'm shifting my mind to get around you  
Still hiding from the truth that's getting on  
I'm shifting my mind, no I can't save you I've changed my point of view  
Appointed for the truth Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you I'm drifting around to get a chance to  
Believe my mind is changing on at all  
I've changed my point of view  
I thought I found the truth  
I thought it's a dreaming up  
But no I don't  
Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you  
Can't forget you, can't forget you, you, you
