

# Over & Over

## Smallpools

It was a company event  
With a margarita tent  
I said "how's your week?"  
She said "man I'm spent"  
And I could use a crazy night  
And I would love to see Chennai  
We could commandeer a little plane and fly  
Or we could just skip stones in the shade  
I wanna call you mine, and never let you down  
I wanna feel it's right, over and over  
I wanna get inside, and take it up and down  
I wanna live this night over and over  
She had a finger on the braille, we let a thimble go to jail  
A little wooden sign that said, "brace yourself"  
Whoa oh whoa oh whoa  
I wanna call you mine and never let you down  
I wanna feel this right over and over  
I wanna get inside and take it up and down  
I wanna live this night over and over  
And if we have to flee the city, from the parlor to the well  
All we'll have to show for leaving, is a penny soaked to hell  
And if we have to flee this city, from the parlor to the well  
All we'll have to show for leaving is a penny soaked to hell  
I wanna call you mine and never let you down  
I wanna feel this right over and over  
I wanna get inside and take it up and down  
I wanna live this night over and over
