

# White Knuckles

## Tegan and Sara

My life tethered like  
Like a twin or a son  
Scared to be severed right  
Right before we begun  
Doubled like a couple, we stood  
Stood out in the light, light  
Crutching each other like  
Knuckles turned white, white I cried wolf  
Howling at the moon  
So left me dead  
Break that mirror in two  
I made us feel  
Feel unlucky too  
So left me dead  
Break that mirror in two  
Our love twisted up  
Like a chick or an egg  
We swear ankles that  
That always were late  
Excuses for the bruises we wear  
Black and blue now, now  
Breaking each other like  
Knuckles in a fight, fight I cried wolf  
Howling at the moon  
So left me dead  
Break that mirror in two  
I made us feel  
Feel unlucky too  
So left me dead  
Break that mirror in two  
Cry, cry wolf  
I don't know what this howling will prove  
Cry, cry wolf  
I don't know what I'm gon, what I'm gonna lose  
Cry, cry wolf  
I don't know what this howling will prove  
Cry, cry wolf  
I don't know what I'm gon, what I'm gonna lose I cried wolf  
Howling at the moon  
So left me dead  
Break that mirror in two  
I made us feel

Feel unlucky too  
So left me dead  
Break that mirror in two  
Cry, cry wolf  
I don't know what this howling will prove  
Cry, cry wolf  
I don't know what I'm gon, what I'm gonna lose  
Cry, cry wolf  
I don't know what this howling will prove  
Cry, cry wolf  
I don't know what I'm gon, what I'm gonna lose
