

# Creature

## Kidneythieves

Creature comfort, supplicant  
Let me tell you what I want  
What's the use, a void of course  
Take the abuse, make it worse Creature comfort, delicate  
Wish I could lose the day we met  
Never in words to say this time  
I should just keep this down inside I wish. You're the other half of the sky  
Creature comfort me tonight. Creature comfort, justify  
I have been waiting all these lives  
Everyone's changed their thoughts with age  
Scratching their bird claws in my cage  
I wish I could love the sun again  
Help me love the sun again  
I wish I could love  
I wish you could love the sun again.  
I could love
