

# Love Again

Baxter

I heard a rumor from a friend  
And another one said  
It was impossible to push  
Your feelings away I heard it took a lifetime  
For someone to forget a love  
But she did yes she did forget it  
At last I need a friend  
I need you  
I need a friend  
I need you I need a friend to  
Take me home again  
I need you to make it true  
They said it could be better  
If I let my love be a part of me  
To let in, to be brave without games  
Or lies But what if everything that I give to you  
Make you scared,  
Make you leave will I ever dare to  
Love again I need a friend  
I need you  
I need a friend  
I need you I need a friend to  
Take me home again  
I need you to make it true  
I need a friend  
I need you  
I need a friend  
I need you  
I need a friend  
I need you
