

Night Sky

Matthew Parker

Every time I look into the night sky
I wonder why
I am even on this earth 'cause I
Know that I was born to fly
Born to find you
Born for more than meets the eye
When I look into the night
When I look into the night sky
Night sky, night sky, night sky
Every time I look into the night sky
I wonder why
I am even on this earth 'cause I
Know that I was born to fly
Born to find you
Born for more than meets the eye
When I look into the night
When I look into the night sky
Night sky, night sky, night sky
