For the World (feat. James Fauntleroy)

The Internet

Cigarettes and sex are on the breath again It's cool, i'm the same, the way we kiss Girl you're special, I wanna protect you and I'll kill so you could live But when the first body went down, you wouldn't tell me that I know it again I'd rather lay it down and get back cuz killin' is a sin We're chillin instead, give me a kiss GirlIt not for me For the world False arrest, unrest, was on the docket It's cool, at least that's what CNN says Hirl you're special, I wanna protect you and I'll kill so you could live But when the last body goes down, it won't make any sense I'd rather lay you back, down on your back, then killin' and shit Chillin' and shit, give me a kiss GirlIt not for me For the world It not for me For the world For the world Just do it like ya love me babe Do it like ya love me babe Don't you wanna love me babe Aw yeah Just do it like ya love me babe Do it like ya love me babe Do it like ya love me babe Aww yeah Do it like ya love me babe Do it like ya love me babyEND
