

# You Changed Me (feat. Chris Brown)

Jamie Foxx

Don't talk to me  
Don't talk to me, I'm serious  
Ohh, you don't even know  
Oh baby get it over  
Now it's starting to show  
Ain't no sense in frontin' when you know I got a thing for you  
Ain't no other girls in mind it's me and you baby, I love you  
Used to be the kind of nigga never wanna settle down  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby  
Say I never settled down  
I'm with you girl, look at me now  
Cause you changed me baby  
I be player for life  
You switched that up in one night, oh baby  
Ain't no sense in frontin' when you know I got a thing for you  
Ain't no other girls in mind it's me and you baby, I love you  
Used to be the kind of nigga never wanna settle down  
Not just the physical  
You mentally stimulate me  
I'm really in love that's crazy  
Girl you can't even save me  
You got me thinkin' 'bout us havin' us some babies  
Everything about love got me like  
Baby come home and put it on me tonight  
I want it right now girl I can't even lie  
Fuck them other girls, they ain't you  
You're the only one I need and that's the truth, oh baby  
Ain't no sense in frontin' when you know I got a thing for you  
Ain't no other girls in mind it's me and you baby, I love you  
Used to be the kind of nigga never wanna settle down  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby  
Girl it ain't just me  
Tell 'em how you feel Breezy  
You know what I'm missin', fiendin' for your kisses  
All night on my phone, when you talk I listen  
Sexin' all in the kitchen  
Breakin' all of these dishes  
Your crib or my bed, it don't make a difference  
I'm lickin' on your body girl I'm feelin' on your booty  
Now you really wanna do the nasty

Girl I love it when you get on your knees you make me disappear like magic  
Girl you don't even know  
All the bitches I let go, for you Ain't no sense in frontin' when you know I got a thing for you  
Ain't no other girls in mind it's me and you baby, I love you  
Used to be the kind of nigga never wanna settle down  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby  
Cause you changed me baby Say I never settled down  
I'm with you girl, look at me now  
Cause you changed me baby  
I be player for life  
You switched that up in one night, oh baby  
Ain't no sense in frontin' when you know I got a thing for you  
Ain't no other girls in mind it's me and you baby, I love you  
Used to be the kind of nigga never wanna settle down You know I've been all over the world,  
man  
I had really gave up on this shit, you know  
Finally met a girl that do for me though  
It's crazy, it's like a dream  
I think I got me one
