

Quicksand

[Bridgit Mendler](#)

You stick to me like glue, oh it's true
I can't get you off my brain
When you came in the room
Didn't know what to do
Oh, I melted so fast, it was a sweet rapida
I sunk to the ground, you swept me off my feet
And I'm falling in deeper, can't be saved
No way out, no way out of your quicksand
It's up to my knees, I can't escape
No way out, no way out of your quicksand
But I can breathe underneath
Take your love, cover me
Pull me down, pull me down
After just that time after my eyes got their fix
I lost my mind, now I find that I-I-I'm craving it
I wanna see you again
You're so stuck in my head
I think I'm losing it, oh I'm falling in deeper, can't be saved
No way out, no way out of your quicksand
It's up to my knees, I can't escape
No way out, no way out of your quicksand
But I can breathe underneath
Take your love, cover me
Pull me down, pull me down
You are wonderful
You've taken all of my heart
It was so worth the fall
Don't let go
No way out, no way out
No way out, no way out of your quicksand
I'm falling in deeper, can't be saved
No way out, no way out of your quicksand
It's up to my knees, I can't escape
No way out, no way out of your quicksand
But I can breathe underneath
Take your love, cover me, oh
Pull me down, pull me down
