

# Lsd = Truth

## Lords of Acid

Trip is an lsd experience  
[mumble]  
Trip is an lsd experience  
High as on lsd  
(x3)Bloodshot eyes needle vein bright colors  
Higher higher more more power brain white dust  
Higher higher [head cake] danger zone flash light  
Red alert speed ball cool smoke bell ringing higher higher  
Love peace freedom dream landscape higher higher  
Red blue marble trees more more higher higher  
Green grass purple seas [fun fest] spooky first [flat liar]  
Crystal teeth brain waves higher!  
He's on the inside  
[getting somewhere]  
He's flying through the darkness Trip is an lsd experience  
These are the answers  
[mumble]  
Trip is an lsd experience  
These are the answers  
High as on lsd Space man God holy ships under water higher higher  
Lust sins [leather lip] more more higher higher  
Brain dead lost souls [crack junk] empty streets hell fire  
Don't stop free drinks higher!  
He's on the inside  
[getting somewhere]  
He's flying through the darkness  
Trip is an lsd experience  
These are the answers  
[mumble]  
Trip is an lsd experience  
He's on the inside  
High as on lsd
