

Until the End of Time

Foreigner

When I was young
And the world belonged to me
I thought that love
Meant pain and jealousy It was a cross on my shoulder
Oh Lord, now I feel so much older
Woo, woo Time had a way
Of making me see
My lonely life
Has taken its toll on me Now I feel the emptiness
And I don't want to live like this
Now I've heard stories
I've heard songs
Telling me believe my heart
Don't wait too long
With words that don't ring true
Until there was you Never will I lose this heart's desire
Ever will I feed our love's fire
Only when I know that you'll be mine
Until the end of time How do I trust
What I'm beginning to feel?
And how deep my soul
How much can I reveal? I'm lost in life's mystery
I'm caught between time and eternity
Now there's a door that opens wide
Slowly I will find my way and reach inside
I couldn't make it through
Until there was you Never will I lose this heart's desire
Ever will I feed our love's fire
Only when I know that you'll be mine
And only when I see the light of love shine
Until the end of time Never will I lose this heart's desire
Ever will I feed our love's fire
only when I know that you'll be mine
and only when I see the light of love shine Never will I lose this heart's desire
Ever will I feed our love's fire
And when I see the light of love shine
In your eyes
When they meet mine Only when I know that you and I
Until the end of time
