Until the End of Time

Foreigner

When I was young
And the world belonged to me
I thought that love
Meant pain and jealousyIt was a cross on my shoulder
Oh Lord, now I feel so much older
Woo, wooTime had a way
Of making me see
My lonely life
Hes teken its tell on meNew I feel the emptiness

Has taken its toll on meNow I feel the emptiness
And I don't want to live like this

Now I've heard stories

I've heard songs

Telling me believe my heart

Don't wait too long

With words that don't ring true

Until there was youNever will I lose this heart's desire

Ever will I feed our love's fire

Only when I know that you'll be mine

Until the end of timeHow do I trust

What I'm beginning to feel?

And how deep my soul

How much can I reveal?I'm lost in life's mystery

I'm caught between time and eternity

Now there's a door that opens wide

Slowly I will find my way and reach inside

I couldn't make it through

Until there was youNever will I lose this heart's desire

Ever will I feed our love's fire

Only when I know that you'll be mine

And only when I see the light of love shine

Until the end of timeNever will I lose this heart's desire

Ever will I feed our love's fire

only when I know that you'll be mine

and only when I see the light of love shineNever will I lose this heart's desire

Ever will I feed our love's fire

And when I see the light of love shine

In your eyes

When they meet mineOnly when I know that you and I Until the end of time
