

On My Own (feat. Nevve) [3LAU Electro Remix]

3LAU

[Verse 1]

Dancing through a hurricane
Soaked in technicolor rain
Time is melting in my brain
Paint the roses black as night
Swimming with the shadow lights
Never wanna know, never wanna let go[Pre-Chorus]
No, don't wake me up, don't give it away
Hold my breath, I just wanna stay and[Chorus]
Lose myself tonight
I'm drifting away through the flashing lights
I just wanna stay out here alone, I can dance on my own
And I can't win no more, I'm drifting away
What you waiting for?
I just wanna stay out here alone, we can dance on our own

[Verse 2]

Take me where the stars run free
Spin me through the galaxy
Hold me in the flow, never wanna let go[Pre-Chorus]
No, don't wake me up, don't give it away
Hold my breath, I just wanna stay and see what's next
Met me halfway, hold our breath[Chorus]
Lose myself tonight
I'm drifting away through the flashing lights
I just wanna stay out here alone, I can dance on my own
And I can't win no more, I'm drifting away
What you waiting for?
I just wanna stay out here alone, we can dance on our own

[Bridge]

Give me just one reason why we can't [?]
[?] with the season 'till the music's real
We got it all, we got it all for us
I can't wait to see the sun arriving with the rain
Take my hand, we're dialing in the [?]
We got it all, we got it all for us[Chorus]
Lose myself tonight (lose myself)
I'm drifting away through the flashing lights
I just wanna stay out here alone, I can dance on my own
I can't win no more (win no more), I'm drifting away
What you waiting for?

I just wanna stay out here alone, we can dance on our own
