

# Workin Man

## Hank Williams III

I woke up this morning kissed my wife good bye  
I pray to god that I make it home safe tonight  
It's a dangerous job but I take that risk  
I trade my blood and sweat just to feed my kids  
I've been workin' for the man since a tender age  
now a rich politician wants to lower my wage  
pour me a drink so I can understand  
these are the struggles of a workin' man I work outside in the pourin' rain  
when it's cold as ice, when I'm full of pain  
it don't matter what I feel inside, long as the job that I'm workin' gets done on time  
the boss man says work's gettin' slow  
pack up your tools boys and head on home  
I pour another drink and try to understand  
these are the struggles of a workin' man  
(spoken)  
See I work construction, I build things  
you understand how important that is to the world  
I don't know if ya'll realize the pressure that puts on a man like me I love my wife and I raise my  
son  
Best I can, better than some  
I just found out there other day  
I got another little one that's on the way  
I took a new job down at the factory  
ya, don't pay much but at least we can eat  
I roll up a smoke and I make a new plan  
these are the struggles of a workin' man  
Went down to the river just the other day  
got down on my knees and began to pray  
I said lord please won't you understand  
the struggles of this workin' man These are the struggles of a workin' man
