1 [Playalitical]

The time is now/ the price is down  
rappers rhymes are shining out  
A&Rs are stupid they're signing clowns  
I fire platinum guns wit diamond rounds  
im here to stay/ moldin ears of clay  
stay near your base its severe today  
you betta man your stations/ or plan vacations  
on the block im hot the critics are ravin  
and underground king pin I keep from sinkin  
every line that I ink is neat wit meanin  
to get girls out they jeans and leave em sleepin  
12 batteries of juice belive im leanin  
Im Hesus wit everything I lay in the booth  
im the new fanchise in the game wit moves ohh  
im here to stay not get slain off news  
writes stay off my balls or ill make ya snooze.

CHORUS: That's why im taking rap music/ rap music back/ takin rap music ba back back to its roots/ Playalitical/ Rap music back/ takin rap music ba back back to its roots. REPEATx1Verse

2 [Playalitical]

My hat is low my wads is big  
my rims don't stop and I aint doin a bid  
im getin lit of a lid goin against the grid  
giggin on the mic for real and I tell no fibs  
theres no special effects in what I think  
theres no CGI work in my ink  
theres no pop up windows in my links  
or my connections from the west to the east  
I bring confession in the booth when im breathin  
like the fathers in the other direction  
behind the curtain its for certain I make a scarcity outta my sessions  
uh and I do it wit finesse a good call for concession  
to make money of my message and acumamuttatas  
my past experiences make my raps hotta than Nevada  
an ion from now when were all forgot of  
my rhyme books el be like the new kabala.

CHORUS: That's why im taking rap music/ rap music back/ takin rap music ba back back to its roots/ Playalitical/ Rap music back/ takin rap music ba back back to its roots. REPEATx1Verse

3 [Playalitical]

It's a good call for toast ting your glasses

if you cant see me yet clean your glasses  
I bring new roots to spring out of your vases  
what I say can change your path like news from nasa  
I rap wit language that's broader than math  
if you cant comprehend it get back in class  
im tellin you listen to my little circle of glass  
its got pride and conviction like Sunday mass  
I aint on TRL but I got more of a gift  
than any rapper on the top 10 rappin about a 5th  
art is known soundscan is myth  
im understood like the beetles hitin universal riffs  
what you hear on the radio is the book of mormon  
its just a new way to control your ears organs  
I wave my dick at billboard statistics  
you could study my writtens like hyroglifics.  
CHORUS: That's why im taking rap music/ rap  
music back/ takin rap music ba back back to its roots/ Playalitical/ Rap music back/ takin rap  
music ba back back to its roots. REPEATx1
