

Boys Like Girls

Mileo

Headed down to the front lobby
light a blunt for a cold sorry
you know i've been thinking of you
yeah
and i'm down with my friends bout it
backing up to the pool party
you know i don't know what to do
all because i love you Boys like the girls and the girls like the boys and the
Boys like the girls and the girls like the boys and the
Boys like the girls and the girls like the boys and the
Boys like the girls and
All because i love you Headed down to the bonfire
preparing for a bad liar
you know i've been thinking of you
yeah
headed down to the ocean
backing up to the motion
you know i don't know what to do
all because i love you Boys like the girls and the girls like the boys and the
Boys like the girls and the girls like the boys and the
Boys like the girls and the girls like the boys and the
Boys like the girls and All because i love you x2 Ooooh x2
