Fat Randy

Voodoo Glow Skulls

He's big, fat, ugly, and mean Too many beers and he's a shitting machine Once he's drunk he likes to fight Any fifteen year old in sightDon't try to run, don't try to hide He'll steal your car without thinking twice Stop the party, hide your shit Because Fat Randy's in the house tonightHigh school parties are his thing He drives up in his orange machine He'll start fighting with his friends Fat Randy gets you in the endFAT RANDY snuck in my house FAT RANDY shit on my couch FAT RANDY quiet as a mouse FAT RANDY, FAT RANDY! I see Fat Randy now and then Driving around with a carload of friends I see Fat Randy now and then Driving around with a carload of friends
