

# Beatific

## Glass Candy

My girl so lovely  
Here comes your only love  
My boy so lovely  
Here comes your only love  
City life to countryside  
This train ride guarantees  
Beatific visions of horror & lovely things  
Will I be slain or saved  
By the kinds of things I see  
There's just one kind  
Dose marks the line  
Poison or remedy  
My girl so lovely  
Here comes your only love  
My boy so lovely  
Here comes your only love  
Lights & shadows keep us dancing round & round  
In this place where angels come to meet the underground  
Now things are new  
But tomorrow age dissolves the sheen  
From beatific visions of horror & lovely things  
My girl so lovely  
Here comes your only love  
My boy so lovely  
Here comes your only love  
Everyday I begin again  
The end is never near  
Will I be slain or saved  
By the kinds of things I hear  
People talk  
Few speak the truth  
Most tell their fantasies  
People's rules & what they do are often different things  
City life to countryside  
This train ride guarantees  
Living proof of human thoughts & fantasies  
I'm not separate no  
I know my mind  
There's just one kind  
The road is lined with beatific visions  
They all lead back to me  
My girl so lovely  
Here comes your only love  
My boy so lovely  
Here comes your only love  
Hey! Bring it back  
Alright, that sounds good  
Hey DJ, can you turn it up? (Sure)

That's better City center to countryside  
This train ride guarantees  
Beatific visions of horror & lovely things  
No one's to say if I'll be slain or saved  
By the kinds of things I see  
There's just one kind  
Dose marks the line  
Poison or remedy
