

# Here In Our Praise

[Fred Hammond](#)

I feel the love of the savior, in this place  
And it's all over me. I feel the love of the savior  
And I feel the spirit of the Lord, in this place  
And it is faithful and true, I feel the spirit of the Lord Here in our praise, we can feel your  
power, glory, mercy and your grace. And with our heart, Lord we worship you  
And we won't be the same, in your power oh Lord we are changed. As we lift up your name,  
brings your presence in this place, this place, this place, this place. And I feel the presence of the  
King, in this place  
And there in joy ever more, in the presence of the King.  
And I feel the hand of the Father, in this place  
And as we reach out to you, rain on your children in this place. Here in our praise, we can feel  
your power, glory, mercy and your grace.  
And with our hearts, Lord will worship you  
And we won't be the same, in your power oh Lord we are changed. As we lift up your name,  
brings your presence in this place.  
Here in our praise, we can feel your power, glory mercy and your grace.  
And with our hearts, Lord we worship you  
And we won't be the same, in your power oh Lord  
we are changed.  
As we lift up your name, let your presence rain over us as we worship you.  
Here in your presence, is your power, glory, mercy and your grace.,  
And we won't be the same, let your presence rain over us as we worship you, as we worship  
you, as we worship you.  
Here in our praise  
Here in our praise  
Here in our praise
