

# Our Time

Lily Allen

It's 2 AM so I just stopped the music  
I'm still swaying like I was on a cruise ship  
Took the words straight out of my mouth  
Come on, everybody, back to my house  
Take my hand, now, you're coming over  
It doesn't matter, you can sleep on my sofa  
Bring some fags and bring some Rizzlers  
We're gonna party like it's nobody's business  
Let your hair down now, it's the end of the  
weekend  
This is our time now, let's forget everything  
And put your glad rags on  
Dressing up like we're queens of the night  
Oh, we just wanna dance the night away  
We don't give a damn what people say  
We've had enough, so turn it up  
Tonight we're taking over  
We will wanna drink till we lose our minds  
Wanna lose sense of space and time  
We're going through, it's how we do  
Tonight we're taking over  
I feel fly, I'm looking Kenzo  
I'll get high but I ain't doing benzos  
I might dance like you're auntie  
I don't care 'cause we're here to party  
I got a quite good record collection  
Yeah, I got everything that came out on Def Jam  
I've got hip hop, I've got dubstep  
I'll take us right through from sunrise to sunset  
Let your hair down now, it's the end of the  
weekend  
This is our time now, let's forget everything  
And put your glad rags on  
Dressing up like we're queens of the night  
Oh, we just wanna dance the night away  
We don't give a damn what people say  
We've had enough, so turn it up  
Tonight we're taking over  
We will wanna drink till we lose our minds  
Wanna lose sense of space and time  
We're going through, it's how we do  
Tonight we're taking over  
Give a little more and  
Dance a little harder  
Shout a little louder if you like  
Move a little faster  
Stand a little taller  
Do whatever makes you feel alright  
Drink a little more and  
Dance a little harder  
Shout a little louder if you like

Move a little faster  
Stand a little taller  
Do whatever makes you feel alright  
Go harder, go harder now  
Go harder, go harder now  
Oh, we just wanna dance the night away  
We don't give a damn what people say  
We've had enough, so turn it up  
Tonight we're taking over  
We will wanna drink till we lose our minds  
Wanna lose sense of space and time  
We're going through, it's how we do  
Tonight we're taking over  
(Go Harder) We just wanna dance the night away  
We don't give a damn what people say  
We've had enough, so turn it up  
Tonight we're taking over  
(Go harder) We will wanna drink till we lose our minds  
Wanna lose sense of space and time  
We're going through, it's how we do  
Tonight we're taking over
