

# Welcome To:

## Ani DiFranco

welcome to  
no amount of stoned makes you feel ok  
welcome to  
this year's alone - brought to you by christmas day  
welcome to  
the darkness into which prayin people prayit's quiet here except for this song  
now that everybody's gone  
but hey  
least you don't have to play along today  
welcome to  
something like elation when you first open your eyes  
just cuz it means  
that you musta finally got to sleep last night  
welcome to  
the precipice between groundlessness and flightit's quiet here except for this song  
now that everybody's gone  
but hey  
least you don't have to play along today  
besides which  
welcome to  
taking the good stuff down off of the shelf  
and welcome to  
the art of conversation with yourself  
welcome to  
humming an unbroken tune  
all day long  
yes it's quiet here  
but hey  
least you don't have to play along today
