

The Black Plot

High On Fire

Bring the shot in the dark,
All day???
With the dark,??? come on raping
Protecting all???
Truth is a live what you live what they're saying Now from the thoughts of ourselves
Lose from the realm of ourselves
Mortal??? around
Drink or get take in the ground Until your eyes stretching out???
And takes it back you just go what you don't know
Poison gifts giving death every time now
Rename ourselves as the gods take the blood oath
Now from the thoughts of ourselves
Lose from the realm of ourselves
Mortal??? around
Drink or get take in the ground
