

White Candle

[Tamar Braxton](#)

I don't ever mean where we be living in alone
If anybody knows I'm broken heart, gonna mend on its own
In life, I know anything with having ain't easy
But that don't mean that we should make things more difficult I can feel the distance between us
Stay inside the sun never felt so far apart
And you ain't making it better
When it's gone, it's gone forever
I was running out of love Don't let our love die
Cause I don't wanna watch us burn out
Don't wanna have you to the flames
Is this how love turns out
Don't let our love die
Don't let our love melt away
Ain't gonna point fingers, cause I know it takes two
And they know it's a fight cause we got nothing to prove
If it's worth it to break it, didn't mean to think of
Is it too late, can we make it lot of fire in our hearts and let it burn Cause I can feel the distance
between us
Stay inside the side or else fall apart
Baby we ain't making any better
But it's gon, it's gon forever
I was running out of love Don't let our love die
Cause I don't wanna watch us burn out
Don't wanna have you to the flames
Is this how love turns out
Don't let our love die
Don't let our love melt away
Away, that's the story of our love oh yeah
Just a broken heart, trying to make it back again
Can we fix it baby
Can we fix it babe Don't let us die
Cause I don't wanna watch us burn out
Don't wanna have you to the flames
Is this how love turns out
Don't let our love die
Don't let our love melt away White candle for our love
