

# Uneasy Hearts Weigh the Most

## Dance Gavin Dance

To feel her touch  
It's almost impossible to hold still  
Maybe we can go back to the way it was  
Well, at least let me love you the same I got lies to tell your children  
When my smile pierces through your bones  
Right through your bones  
(Through your bones)  
The grass is green inside my yard  
I can make you laugh so fucking hard it hurts you  
Inside your bones  
(Inside your bones)  
When she talks, I listen  
She's in the shower and her skin glistens  
Like, oh my god, I like it  
Like, oh oh god, I like it I suggest a drive, let's take the back road  
Let's get lost, let's lose our minds  
Hey, little girl, I think we found it tonight  
I think we glow that fucking bright, oh  
And when she laughs I like it  
Like, "oh ha ha ha ha ha" I got lies to tell your children  
When my smile pierces through your bones  
Right through your bones  
(Through your bones)  
The grass is green inside my yard  
I can make you laugh so fucking hard it hurts you  
Inside your bones  
(Inside your bones)  
Holy shit, she smells like heaven  
Been best friends since we were 11  
Oh my god, I like her  
Yeah, I heard you like her  
Baby I thought that we had something  
Compared to him I'm next to nothing  
Oh my god, I like her  
Yeah, I heard you like her I am a million fucking bucks  
I am a thousand fucking fucks  
Your bitch is dead. she was hit by a truck  
What the fuck! Holy shit, she smells like heaven  
Been best friends since we were 11  
Oh my god, I like her  
Yeah, I heard you like her  
Baby I thought that we had something

Compared to him I'm next to nothing  
Oh my god, I like her  
Yeah, I heard you like her
