

# Let Me

## Pat Green

Let Me

Pat Green Keep your head there on my shoulder

Let's just lay here for awhile

We can hurry when we're older

And girl, don't worry about tomorrow

That just seems so far away

Love for me, me and you,

All that we have to do is follow

just follow

Let me be the one who sets your feet up on a road where you've never been

oh, and baby then

You can let me take these arms and wrap you up inside a night that will never end

I want to be that man

if you let me

C'mon, baby, let me Baby, leave those candles burning

Slide on over here to me

If you run with me, girl

You know we'll make this world stop turning

just stop turning Let me be the one who sets your feet up on a road where you've never been

oh, and baby then

you can let me take these arms and wrap you up inside a night that will never end

Well, I can be that man

if you let me

Oh, whoa

Let me be the one who sets your feet up on a road where you've never been

Yeah, and let me take these arms and wrap you up inside a night that will never end

I want to be that man

if you'd let me
