

We Can Be Friends (feat. Herizen)

What So Not

[Intro]

We can be

We can be

We can be friends

We can be

We can be[Chorus]

I don't wanna be with you anymore, anymore

But we can be friends, we can be friends

I don't wanna hold your hand anymore, anymore

But we can be friends, we can be friends

[Verse 1]

Water's deep, should I wade in?

What the price if I cave in (We can be, we can be friends)

Take it all with no measure

I'm a fool for the pleasure (We can be)

And you say what you say

But you see, I don't wanna play (We can be, we can be friends)

And it's all just a game

When we, we don't feel the same

I just want you to see the truth[Chorus]

I don't wanna be with you anymore, anymore

But we can be friends, we can be friends, we can be friends

I don't wanna hold your hand anymore, anymore

But we can be friends, we can be friends, we can be friends

Say it till the end, we can be friends

But we can be friends, say it till the end, we can be friends

[Bridge]

Make me crazy

Make me crazy

We can be friends

Make me crazy

Make me crazy[Verse 2]

I don't want a friend now

Fuck your friends now

I just wanna break down

Yeah, I break down, it's fine, fine

I'm not having fun now

Fuck this whole crowd

Rather be alone now

Till I break down, it's fine, fine (It's fine)

We can be friends[Outro]

We can be, we can be, we can be

We can be, we can be, we can be

We can be, we can be, we can be

We can be, we can be, we can be
