

# Yuck

## Logic

My name is Paul Rothenberg, attorney of law  
And I hereby ratify and confirm that Logic is motherfucking paid  
Can't nothing stop me, I'm on  
a roll

Always on time 'cause my eyes is always on my Roley-olex

I don't trust nobody, oh no (no no no)

I don't trust nobody, put my homies on the payroll

Fuck with me now or you'll never know (never know)

If you weren't with me in the beginning you get no love

Money, Bobby Tarantino (Tarantino) Logic ain't here right now, leave a message if you want

Hold bring it back uhh, Imma call you back uhh

Too busy countin' stacks uhh, pickin up the slack

I was born in the trap, chains on cook crack

Logic never wanna flex, but Bobby finna bring the facts

Put my city on the map, fuck with the gang get attacked

It ain't a thing, Rattpack, nobody know about that

Bitch I been gunnin coming for the thrown

And I know that they talking, can't fuck with the tone

Talkin shit bout Logic, I never respond

I'll let success talk, 'cause a word of advice

More achievements for yourself and less talk

Cats beef with Logic, Yeah the praying I respond

If I ever did I dead you in this game with no respawn

Peace, Love,

and Positivity that's all I want with you, but you push the issue

Cuz I give you more press than your publishers could ever get you

Hell nah, fuck rap, fuck beef

Anyone that hate me, I wish you success

I wish you look in the mirror

And ask yourself why you so pressed

If feelings of self-hatred that you want to project on me

Bet if I never picked up the mic then we might be homies

But you jealous, you look at my life and you feel envy

Constantly comparing yourself to me, and feel empty

Most people that don't fuck with me ain't ever shook my hand

I'm a good man, yeah I love myself

I know who I am, yeah I love myself

They don't understand, but no matter what happen you know that-Can't nothing stop me, I'm on

a roll Always on time 'cause my eyes is on my Rollie-olex

I don't trust nobody, oh no (no, no, no!)

I don't trust nobody, put my homies on the payroll

Fuck with me now or you'll never know (never know)

If you weren't with me in the beginning you get no love

Money, Bobby Tarantino (Tarantino)

Logic ain't here right now, leave a message if you wantHi, it's uh-

Logic, hi, sorry it's Elton John calling you

Uhm, I hope you don't mind me getting you on your mobile

I'm not getting you on your mobile

But I was just uh,

congratulating you first of all for your performance at the Grammy's

And then I was asking you- I was gonna

ask you if you'd like to do something for me

Uhm, I will ring you back later and see and talk about it

Thanks
