

I Give You Power (feat. Mavis Staples)

Arcade Fire

I give you power, over me
I give you power, but now I gotta be free
I give you power, but now I say
I give you power, I can take it away
I can take it away
Woo! I give you power
I give you power
Over me
Over me
I give you power
I give you power
But now I gotta be free
But I gotta be free
I give you power
I give you power
But now I say
But now I say
I give you power
I give you power
I can take it away
I can take it away
I can take it away
Watch me
Take it away
Watch me
I can take it away
Watch me
Take it away
Watch the night I give you power
I give you power
Over me
Over me
I give you power
I give you power
But now I gotta be free
But I gotta be free
I give you power
I give you power
But now I say
But now I say
I give you power
I give you power

I can take it away
I can take it away
I can take it away
I give you power, over me
I give you power, but I gotta be free (gotta be free)
I give you power, now I say
I can't watch you take it away
Woo! I give you power
I give you power
Over me
Over me
I give you power
I give you power
But now I gotta be free
I gotta be free
I give you power
I give you power
But now I say
But now I say
I give you power
I give you power
I can take it away
I can take it away
I can take it away Well, ooooooh, oooh
Ooooooh, oooh I give you power (power)
Where do you think it all comes from? Huh?
Who gives you power? (Power)
Where do you think it all comes from?
I give you power I can take it all away
I can take it away
Watch me
Take it away
Watch me
Take it away
Watch me now
Take it away
Watch me
