

# Gravity

## The Band of Heathens

(\*Brooks/Williams/Jurdi/Quist)

Rising in the morning\*  
You're the one I see  
Falling down around my shoulders  
Like the leaves off a tree  
Shining like a diamond  
Coming through in waves  
I Need you like the summer time  
Needs your sweet embrace  
Gravity, holding on to you and me  
Oh, I would not be, I would not be here  
Oh, I would not be here without your love  
Falling through darkness  
Remembering your face  
I Need you like the winter time  
Needs your saving grace  
If I could embrace you  
Without the space of time  
Icarus so faithful  
Disappear into your mind  
Gravity, like a ball and chain  
Oh, I would not be, I would not be here  
Oh, I would not be here without your love  
Oh, I would not be, I would not be here  
Oh, I would not be here without your love  
Oh, I would not be, I would not be here  
Oh, I would not be here without your love  
Oh Oh Oh without your love  
Oh Oh Oh without your love  
Oh Oh Oh without your love  
Oh Oh Oh without your love
