

# E Dagger

## Lagwagon

Come on, E  
Try to go easy  
We can do anything, anything, anything  
Come on, E  
We got it covered  
We can stop anytime, anytime, anytime  
Come on, E  
It's just a party  
Lets go to party town, then we can party down  
Come on, E  
Check out my party hat  
My name is Randall, I wrote you this song  
Can't you see that all we need is  
One night to release  
It's bound to be the last in all of history  
Come on, E  
Raise your glass to the sky  
Drink to those solid grays, olden days, whatever  
Just want to get radical  
Don't be a bummer  
Look at the summer day  
The sun is rising once again (yay)(Can we have just one night without  
All this self distruction?  
I just love my husband; I can't live without him)  
Come on, E  
We're goin' easy  
It's just a party  
Time to get gnarly  
Come on, E  
Tryin' to go easy  
My name is Randall, it's nice to meet you  
We are always here to make you laugh  
common, e!
