

Fortune Soul

Blackmill

The other side
Take it to the low So he can see
The man in disguise
So he can see
The big surprise So he knows he's got to find
Gotta find some peace of mind
And he knows
He's the fortune soul So they can see
The strings that lie
So they can see
The wasted lives
I know you, you wanna find
Wanna find some peace of mind
To what you know
You're the fortune soul
